Years have passed by, and here we are celebrating this year, the tenth graduation class of Aspire Academy. It is an occasion that brings pride and joy as we recall the journey with its memories and challenges that graduates have undertaken to get to this day. Every time we gather to celebrate the graduation of a new class of our boys it's with tremendous sense of achievement and progress.

Aspire Academy has been a dream that we set out to achieve much right from the creation of the idea and plan for sport city. The graduation of generations of talented students in both education and sports was a noble goal that we made every effort to achieve over the past years. Today we harvest some of the fruits of our efforts with this milestone, tenth graduation and all of involved should rightfully take pride of this achievement.

I would like to congratulate the graduates for reaching this point today. Their journey was certainly not an easy one. So their success and excellence were the results of hard work and determination. This learnt and cultivated habits are the real tools that they will build on as they forge ahead in life, filled with confidence, knowledge, skills and experience they gained during their years at the Academy. The Academy is one of the best sporting and academic institutions in the world, where an elite of sports talent development experts are working using advanced technology as well as state of the art equipment and facilities. All this was achieved thanks be to God and the unlimited support of the wise political leadership of our country from whom the insightful vision of making investment in sports and sporting talent has been one of its top priorities. As a result, Doha has truly become the capital of sports in the region and Qatari athletes are fast becoming known in the global sports world, and most of them are our Academy graduates of whom we are proud each time we see them competing on international stage.

I would like to commend the efforts of the rest of the Aspire Zone Foundation members who together with the Academy provide comprehensive care for students from all aspects to achieve the foundation's strategic goal of supporting and developing sport talent in our nation. Aspetar always provides rehabilitation and health care for the students during the various competitions in which they take part. Aspire Logistics manages all the facilities and provides logistical support for the academy whenever needed. The combination of these key players hugely contributes to the graduation of an integrated student athlete we see here today. I am very confident and I truly believe that a life full of opportunities and success lies ahead for our graduates, making each one of them a source of pride for his country, his family and himself. They are our hope and the real wealth we rely on in building a prosperous and promising future for our country.

I wish them all the success in their future endeavors. God be with you all.

Hilal Jeham Al-Kuwari
President
Aspire Zone Foundation

First of all, I would like to congratulate our tenth class of graduates of Aspire Academy on celebrating their graduation. This day will not be forgotten and will always be one of their best and happiest days. They will leave the Academy and take with them years of memories, experiences with their teachers, coaches and classmates, as well as the reflections of exams, studies, training and championships. All these memories will have a great impact on their lives. I also would like to congratulate the parents and thank them for supporting their children during their stay at the Academy and for believing in their ability to become the stars of the future and honourable role models in every sphere.

No doubt, the graduation of a new class of Aspire students is one of the happiest moments we experience in Aspire Zone Foundation; moments of pride, joy and hope for a bright future; moments that demonstrate that our sincere efforts are fruitful year after year. Every one of our graduates has been the focus of great interest and attention for many years. During this time, their sports talents were honed and developed in one of the most important sporting facilities in the world. They were armed with an excellent education through the latest curriculum and teaching methods. This is what distinguishes our students from any other sports academy students anywhere in the world.

With graduation, our students open a new page in working life while having already gained many skills and values that help them to encounter the challenges of real life. Taking with them responsibility, teamwork, spirit, creativity, potential discovery, integrity, respect and professionalism, all Aspire values and principles that we have instilled in them. Today, our graduates are our ambassadors to the community and to the whole world. They carry with them those unique values and raise the flags of the foundation and the state aloft. They are our hope to translate our mission to enhance sport performance. Their success is proof of realising our vision to be the reference in sports excellence worldwide by 2020.

In this regard, I would like to stress that celebrating this wonderful occasion is due to the insightful vision of our wise leadership. Showing great interest in human development through Qatar National Vision 2030, they focused on sports as an important venue and a basic foundation for this development. They continue to show their dedication and investment in developing future generations who are provided with nothing short of the latest sciences and expertise existing in advanced countries.

I conclude by wishing our dear students to continue to succeed and shine. I am totally confident that you will be among the best members of the society. You will be relied on and you will work on its development. All that you have aspired to and worked hard for, you will achieve. God bless you.

Aspire Academy inspired me to be an outstanding athlete and to distinguish myself by building my character. I benefitted a lot from the teachers, coaches and administrators, who were always keen to help me develop both my abilities and my personality. I cannot thank Aspire enough and pray to Allah to bless the generation after mine with such an opportunity. I am planning to join the army and will continue my sports. I hope to one day compete for the Qatari national team.

- Breaking the Qatari record for youth and junior categories (110m Hurdles)
- Won Bronze medal in World Schools Championship in China
- Won bronze medal at the Arab Junior championship (born in 99)

Since joining Aspire Academy, I've developed so much as a person. I've become more self-confident, I've learned how to be organised, to take more responsibility and be more disciplined in various respects. And I have learned to speak English. My ambition is to become an air force pilot. My advice to my peers is to stay focused and work hard to achieve your sporting and educational goals. Achieving these requires real responsibility, respect and patience.

• Gold medal in West Asian Athletics Championship (Decathlon)

Train

Abdulla is a very fast winger and plays a vital part in Qatar's U19 national team. He is good in one-on-one situations, committed and has a strong work ethic and positive character, making him an asset to any team. Despite being one year younger than the rest of his teammates, he was part of the Aspire Academy team that reached the final of the 2017 "Al Kass International Cup" and played in the team that qualified for the AFC U16 Championship in Thailand in 2014. He has the skills to make an impact in the QSL in the future. **#AspireAcademy**

Aspire has completely changed my daily schedule because I now appreciate how important time management is to getting the most out of life. At an academic level, I received an IELTS course and got an excellent mark in my 12th scientific grade. My wish after graduation is to achieve a good balance between university studies and football. My advice for my colleagues is to never stop working and training and to organise your daily schedule to balance your sporting commitments and studies.

- First place in Yellow Cup Championship
- First place in school championship
- First place in Aspire Tri-Series for 5 consecutive times

Aspire has changed my life – particularly in terms of the way I now dedicate myself to training and attending school. I'm proud to say I achieved first place in Qatar in the hexathlon, and second in hurdles. I also won the cup with the Youth League. My ambition has no limits and my major goal is to become a professional player. I plan to pursue my college studies in order to achieve a good education, and become a player that will make my teachers and family proud. My advice to my peers is to fully commit to training and to take their studies seriously. I would like to thank all the teachers for their efforts and also the Director General of the Academy, his Deputy and all administrators, in addition to my family who supported me a great deal.

Mohammed Abdelwahab A. Hussein

Aspire was of great benefit to me as I joined the leaders' program and was leader for two years, learning French in addition to English and Arabic. My goals after graduating from Aspire are to qualify for the Tokyo Olympic Games 2020 and to represent the Qatari national team at world championship events. My advice for students is to take advantage of the facilities and support and work hard to raise Qatar's flag aloft. I would like to thank my colleagues and friends for all their support and advice during my academic journey. I also want to thank the teachers, administrators and all employees of the Academy.

- Qatar champion in table tennis
- Gulf champion in table tennis
- Arab champion in table tennis

He is the most dedicated and diligent student in our team, a hard worker and very motivated. For him, every practice is a new challenge and he always gives one hundred percent in every training session and in every competition. He never gets distracted and it's a pleasure to work with him. He has achieved many outstanding results during his time at the Academy. He is the current Arab single champion and, in 2015 and 2016, he qualified for the World Junior Circuit Finals, something that is only possible if you're among the world's best 16 players U18. Besides that, he holds many medals in the World Junior Circuit competition and has showed strong performances all over the globe. He wants to be the first Qatari table tennis player who qualifies for the Single World Championship and, if he keeps up his good work, he has quite a good chance. He will still be very young when the 2020 Olympics in Tokyo come around, but being part of it is definitely one of his goals. [#AspireAcademy](#)

I learned respect and discipline at Aspire. They are important factors in life and key to success. I also gained English language skills and now wish to join Qatar University to study Business Administration. To future students, I say: work hard and take advantage of your time here because Aspire is a blessing from God. I thank everyone who helped me become who I am today.

The ability to balance sports and studies is the most important thing a student gains at Aspire Academy, in addition to leadership skills. These will stand me in good stead as I enroll at the Education City universities. I advice my colleagues to abide by the rules of the school and to be disciplined in order to get the most from this experience. I would also like to thank all the people working at Aspire and my classmates for all the things they have given me.

Aspire Academy has had an enormous impact on my life and I will not forget the lessons I have learned here. It has helped me set my priorities, organise my studies and respect others. I now hope to take these lessons forward to college, where I will continue to be a referee, or to join the army. I advise my colleagues to be diligent in their studies at Aspire and to benefit from all the knowledge held by the teachers, coaches and administrators.

My outlook has completely changed thanks to my time spent at Aspire Academy. I found myself in an environment that instills moral values and supports students' development in terms of sporting potential, intellectual pursuits, cultural awareness and general knowledge. I've benefited a great deal and I was fortunate to take part in several tournaments as referee. My ambition is to become an international referee and graduate from college.

Academic Year

See us

Aspire Today, Inspire Tomorrow

We gather today to celebrate a moment of high significance in the lives of 38 Aspire Academy graduates.

As with all such moments of transition it is an occasion to reflect of the past six year but most importantly to rejoice in the future that lies ahead.

Moments of transition like this, hang suspended between past and future. They are comforting, because they make you realize what you have accomplished over the past few years. But they are also bittersweet, because something must end in order for change to take hold. In every ending is the challenge of a new beginning.

If we gaze back, we can marvel at the long and winding pathway that has led you to this graduation. And it's is important to stress at the outset that your accomplishments as Aspire graduates are the result of your own merits. But we also need to appreciate that behind each and every one of your stories there are numerous accounts of teachers, coaches, family and friends. People who have stood by you, supported you along the way.

It is a day to celebrate the value of teamwork as a catalyst for inspiration and success. It is a day to embrace a new beginning. As you navigate the joyful ride of life itself, the road immediately ahead is always to the most important one. So grab it with both hands and push forward with the optimism you have fueled at Aspire for yourselves and the young students who will follow your footsteps.

Besides your achievements in sports and school, I hope that during your time here at Aspire you have grown close to your classmates; and that you have forged relationships that will forever last into your bright future.

Wherever your path is going to take you, your future is full of possibilities. You are now equipped with a profound skill set from which you are going to benefit in your respective career. You have acquired good friends and you have been trained by experts in their fields. As an Aspire family member, you have created a bond that will grow even stronger as you move on. You have become part of this fantastic story Aspire Academy has been writing since 2004.

We are proud of who you are, who you will become.

Ivan Bravo

Director General, Aspire Academy

Distinguished colleagues, parents and student-athletes.

I would like to take this opportunity to congratulate you on the graduation of a new group of our student-athletes who have proved their worth over the past years on both the sports and academic levels.

Ambition is a spiritual energy in the human life, a mental plan that organizes our lives, drives us into the future.

Success, certainly does not require excuses, and failure leaves no justifications. Therefore, you must have the components of success in order to allocate runways through which to takeoff toward success.

Dear Student-athletes,

The world is undergoing a major technological revolution, one of which is the speedy development of communications. The tremendous development of communications in recent years has made leading as an essential part of everyday life, accompanied by the challenges of making the right decisions at all levels.

At this stage, we had to provide the necessary support to the young leaders, harness the potential of promising sports' talents, and cultivate the sense of responsibility to realize our goals and aspirations.

Attempting to recruit talents towards creativity, leadership and true talent, contributes significantly to the achievement of educational goals through communication skills that reward those who have a solid desire for development and leadership.

Dear colleagues

Thank you all, educators and coaches for your diligent efforts to develop our student-athletes and I am very delighted and proud of you all.

Dear sons,

You are the holders of the banner of excellence and merit, I hope you will be the best representatives of our country and the ambassadors of Aspire Academy in various international forums.

I extend my sincere congratulations to you and your families wishing you the best in your lives and careers.

Mr. Bader Al-Hay

Director of Education and Student Affairs

Dear Aspire family, parents and student-athletes.

On the occasion of celebrating the graduation of the tenth class of Aspire Academy student-athletes at the end of the academic year 2016-2017, I would like to congratulate every one of you for this achievement.

Dear graduates,
Every end of the academic year we gather to celebrate the students' graduation from Aspire Academy, and we are delighted and pleased to see the culmination of the hard work you put into it. As we bid you farewell from the Academy, where you, hopefully have spent some of the happiest days in your life, there is amongst us also a feeling of sadness. This feeling however, pales in comparison to the joy of seeing you on the graduation stage, a confirmation of the hope of a bright future and optimism that lies ahead for you, In-Sha'Allah.

To you dear Parents, I would like to thank you from most sincerely for placing your trust in our school at Aspire Academy with its academic programs, methodologies and a learning scheme designed to develop your son's abilities and promoting their academic and leadership skills.

The evidence of this deep trust you put in us to care for your beloved sons is seen in the wonderful real partnership founded on sound interaction and cooperation we have built together over the past years and which we look forward to continue growing further with each passing year, In-Sha'aAllah.

Dear teachers and administrators,
Words don't quite express or justifiably describe you and the qualities of educators we have at Aspire Academy. It is because of your professionalism, commitment and leadership that we have become an internationally recognized school that is respected by the community and all stakeholders. Yours is the onerous and exemplary human endeavour that no words can fully explain and is epitomized by your dedication to teach and impart knowledge and skills for life to students which in turn enables them to reach and be the best they can be. Yours is work that builds a conscious, educated generation that is well-informed of the modern learning developments and technology requirements and is able to distinguish between right and wrong.

Congratulations,

Mr. Jassem Al-Jaber
School Principal
