Dear Graduating Class of 2016,

Today you will receive diplomas to mark your graduation from Aspire Academy. These diplomas represent years of hard work, commitment, dedication and achievement, and will mark a turning point in your lives.

The class of 2016 will be greatly missed, and most of us here tonight can testify to your academic achievements, memorable competitions and passionate performances in your sports.

However, this group of student-athletes represents much more than grade point averages, championships and inspiring performances. This class is unique not because of what you have accomplished, but how you have accomplished it. In a time when it has become easy for young people to focus on their individual needs and wants, the class of 2016 chose to leave no one behind. The cohesiveness, camaraderie and caring demonstrated by this class is something for which it will long be remembered. Showing such outstanding behavior is also what being a student-athlete of Aspire Academy is about. By embracing the Academy's values, such as accountability, teamwork, integrity and respect, you have become responsible young adults who will be successful individuals regardless of whether you choose a career in sports, academia or the global job market.

Wherever your paths may lead, Aspire has taught you the skills to help you overcome many challenges and help you become the future leaders of this great country.

Aim high, and make sure you strive to develop your skills and your potential. Rather than being the "best in the world", try to become the "best for the world". In so doing, you will constantly challenge yourself to independently develop your unique talents, and only you will be able to judge the success of your life. Also, by matching your unique skills to the challenges of the changing world, you will more likely live your life to the fullest and, in so doing, help others to achieve their goals.

As you all move on, please keep in mind that each of you are able to greatly influence the strength and the continued growth of the Academy, as well as the preparation of future generations of student-athletes. I urge you to help us to positively impact the lives of many more students to come by becoming role models for them to aspire to.

Congratulations, graduates, and thank you for all of your hard work and dedication. Well done from all of us here at Aspire.

Dear friends from the 2016 Class,

Today we joyfully celebrate with you, your families and your Aspire Academy brothers and sisters the much deserved recognition only earned by those who become Aspire graduates.

Every year, we say goodbye to yet another class of young men, you, who have grown into well prepared, self-confident and kind spirited aspiring leaders. And every year I have the sincere feeling that the most recent class has outdone the previous generations.

All of you will move on to increasingly successful chapters in your lives. Whether in sports, in academics, in the professional world or as civil engines of social change the State of Qatar will be proud and will benefit from who you are and who you will become. And I mean success through its real meaning. Your success, our enjoyment, will be determined by your ethical fortitude in setting fair and demanding goals in life for yourselves, in working honestly and ardously to accomplish those goals, and by treating others with dignity and respect while on your life journey.

Your years at the Academy have allowed you not only to be better prepared for life, but also to witness how your Aspire friends, older and younger have blossomed as well. All of you together have achieved significant milestones and have strengthened the past and present of Aspire as an institution. We have learned from you as much as we have tried to teach you.

I humbly ask that now that you join your fellow graduates, you become also part of our future and, together with your fellow graduates, you become our strongest ambassadors through your actions and character.

Yours in sport.

Badr Jassim Al Hay
Director of Education and Students' Care

Dear Guests, Staff and Student-Athletes,

On this happy occasion while celebrating the graduation of a new Aspire Academy class, let me first congratulate everybody who were involved in this event.

We know from mythologies and human history that there are many different kinds of powers in this world. The trick is not to assemble all the different kinds of available power, but to use well the kind you've been granted.

The Aspirations the world need are independent dreams. We need dreams based on what might be not on what is. We need students who can learn how to learn, who can discover how to push themselves and are generous enough and honest enough to engage with the outside world to make those dreams happen.

Your gifted sport power is a responsibility before being a privilege, use it carefully but to the maximum and always remember that you are our ambassadors to the world, so keep our reputation up.

Dears Student-Athletes,

Amplified by the Web and the connection revolution, human beings are no longer rewarded most for work as compliant mechanisms. Instead, our messy world is open to the work of passionate individuals, committed to figure their own paths. That's the new job of school. Not to hand a map to those willing to follow it, but to instill leadership into a new generation.

In the connected world, reputation is worth more than test scores. Free access to data means that data isn't the valuable part; the processing is what matters. Most of all, the connected world rewards those with an uncontrollable desire to make and lead. I would like to clarify my ambition about you in the future as Aspire graduates; at Aspire academy, we have confidence in what's offered from our side in both sporting and education tracks, but the more important is our trust about your abilities to continue your life as champions and to get use of all what you gained during your life at Aspire.

Dear Aspire staff,
you know that I am confident and proud about your performance.
Thank you all.

Dear Graduates,
I wish you a bright future as champions whom we are all proud about.

Jassem Al Jaber
School Principal

My warmest greetings to honored board members, guests, families, Aspire staff and student-athletes on the occasion of celebrating the graduation of the Aspire Academy class of 2015-2016.

I would like to extend my sincere thanks and special recognition to the entire Aspire faculty who have assisted student-athletes in reaching this outstanding achievement. This accomplishment is a result of your tireless efforts in our classrooms, on our sports fields, through our career consultancy and school boarding as well as other various logistic services provided to SAs.

Genuine and heartfelt thanks are also extended to our esteemed teaching staff that has been invaluable to the progress of our school in moving it forward thanks to all of their hard work. Despite the difficulties encountered along the way, you have continued to demonstrate determination and willingness to achieve the objectives set before you. I have always believed that our goal in life is to make the world a better place...my dear teachers, by virtue of your experience, capability and leadership skills, Aspire Academy is a better place.

To our distinguished parents, thank you for the support you have given to Aspire Academy and the trust you have bestowed upon us. I would like to proudly draw your attention to the fact that the Council of International Schools (CIS), has recently recognized our school as accredited due to the high-quality learning system and the educational care we provide to our student-athletes. This achievement has been the result of the hard work, commitment and loyalty of the Academy faculty and staff. The outcome of this process is that our school certificates are now nationally and internationally accredited.

My Dear Graduates,

This event marks a milestone in your life and represents a celebration of your accomplishments inside and outside of your classrooms. As for sport, this is just a stage to be followed by others filled with new opportunities to develop, excel, create and make a difference.

While this is a special event, it will ultimately define you, shape your identity and distinguish you in the way you make contributions to your community. Your support for the sports community and shaping its future is a direct result of your respect, care, and love of those you interact with and the way you approach and eventually fulfill your goals and dreams.

As you embark on the next phase of your journey, move forward and be confident that you possess the prerequisites and requirements for success; advance with commitment to excellence and a strong faith that dreams may come true if we work on them; put your mind at ease in that everything is probable knowing that we strongly support and encourage you.

My Dear Sons,

You will remain members of our Aspire family and we hope that the next phase of your journey will be filled with happiness, good health and continuous accomplishments.

All the best to you and congratulations,

TAREK SALMAN SOLIMAN SALMAN

In the name of Allah the most Graceful, the most Merciful.

My beginning at the Academy was quite normal like any enrolling student-athlete. I had no idea what my sport future or career would be like. Once I started engaging in the Academy's mood, I realized what "Aspire Academy for Sports Excellence" meant. I noticed the magnitude of this great place and I saw that its strength lied in bringing together a lot of sporting and academic competencies recruited from all over the world. Later, the Academy became even more important and more valuable to me when I found out that I was making great progress in both my studies and sports from the very beginning. The Academy hosts events and activities throughout the year. And as a student-athlete, that was exactly what I was looking for: develop in both fields. This is what happened, and I was one of the best in both sports and education. I was able to join the Youth National Team and represent Qatar in the U20 - World Cup. That was a great honor for me. If I were not one of Aspire Academy's student, I would not have had such an honor.

In brief:

Aspire Academy has added a lot to my academic and sporting career. It helped me to be able to face the various hardships of life and be able to stand challenges and be active in society and with the people surrounding me and my family. This Academy venue is the first step towards success for any student athlete who wants to develop and go ahead towards scientific and sporting horizons and achieve the success he aspires to.
