SEASON 2016/17

**ASPIRE TODAY**

**INSPIRE TOMORROW**

# ABOUT ASPIRE ACADEMY

Aspire Academy first opened its doors in 2004 and is considered to be one of the leading sports institutions in the Middle East. The Academy offers an integrated educational programme of sports development, sports science and academic learning to boys aged 12 to 18. The school develops well-educated sports champions and aims to become the world's leading sports academy for young athletes by 2020.

## EDITORIAL: A WELL- ROUNDED EXPERIENCE

Without any doubt, the TRI-SERIES tournament has reached a new level in the 2016-17 season. The competition, launched in 2012, serves as Aspire Academy's yardstick to compare, to benchmark and compete against the best youth teams in the world. It has grown into a brand that is well-known locally and internationally recognized.

This positive development is the result of a great team effort across the board with the Academy players and staff fully identifying with the tournament. They have made it their championship.

Aspire Academy's student-athletes are eager to compete, to be challenged by clubs from all over the world and to win as many games and tournaments in their respective age group. It has become evident that Aspire players have mentally moved on from being able to merely compete to being able to win.

The competition prepares the boys beyond just sporting competition as the matches are covered by external and internal media, which helps the boys to develop a certain level of professionalism when it comes to dealing with journalists

and being exposed to the public. The TRI-SERIES offers the visiting football talents not only the opportunity to get a glimpse of Middle Eastern culture or to get to know the host country of the 2022 FIFA World Cup. This experience also opens the door for a unique multicultural exchange and the possibility to overcome prejudices by being exposed to peers from different countries, religions and backgrounds.

In total, 1.500 players, coaches and support staff get on a plane to Doha every year for the sake of competing against the Academy teams. A big number that requires helping hands from a variety of departments to guarantee a smooth event. From arranging flights to dealing with visa applications, to having photo shoots and keeping the pitches in perfect condition, everything has to be considered when it comes to the success of the TRI-SERIES. Before a ball is kicked lie months of careful planning and selecting teams that create a good mix of different playing styles and football philosophies.

The fact that clubs are happy to return after coming here once shows the high standing the TRI-SERIES has received over the years. We take it as a compliment and understand it as a mission not only to keep the current level, but to improve it in order to make this experience for the young players and everyone involved even more rewarding.

Stephan Hildebrandt  
Manager Football Operations  
Aspire Academy

# THE ASPIRE WAY OF INTERPRETING FOOTBALL

For us at Aspire Academy, every player is a project. And for every project it is important to know about where to start and where you want to go. In this environment, our main goal is the long term development of individual players. An objective that differs a lot from working

with a professional football team, that is more focused on results and achievements of a team. In order to achieve our goals, it is also important that everyone that is involved in the process speaks the same language and follows the same football methodology. We aim to create a culture

of football that is recognized by people as the "Aspire way" of interpreting and playing football.

Developing young footballers does not happen overnight. It's a long term process. Professional football is very focused on competition and results, whereas we have to focus on different aspects in order to prepare our players for the challenges ahead. The coaches have to constantly ask themselves: What are the needs of the individual player? That starts with simple things such as sharing the same culture and work ethic in training and in the game.

There are a number of things that young players need to learn in order to become a professional football player. In our methodology we try to identify the aspects that guarantee players the biggest chance for a smooth transition from youth to adult football. We want our players

to understand the game, to show the right attitude in training, to know about tactics and what his position demands from him. He needs to develop the skills to evaluate the game, to read and interpret situations and show tactical intelligence. For the coaches that requires to be innovative in order to have players adapting to the demands of high performance football.

Therefore, for a deeper understanding of the sport, it is important that players are flexible and can think outside the box. No matter what challenges they face, they should be able to adapt and overcome these obstacles. That is the claim of Aspire Academy's football program and this approach is not only limited to the boys' development as a player, but also as a person. We are eager to see them challenged in different environments besides participating in international tournaments abroad. The

best of them also get the chance to spend some months training with youth teams of top clubs in Europe, through our HOPE Project.

In terms of a development as a player, each one of them adapts to the Aspire way of interpreting football the longer he stays within our system. The focus is on the three main aspects: Individual Assessment, Decision Making and Game Interpretation. When a player gets the ball, he has to assess the situation instantly and decide what to do next. They have to take responsibility if they want to have an impact on the game and therefore they need to think through as they play. Is it worth going into a one-versus-one? Is it better to play a pass or is there

a good option to finish?. In the end, the outcome of every game is a result of the decision of the individual player's interpretations of different situations among these, space, opponents and teammates on the pitch.

For this reason, the individual improvement of every player always has to be present in our work at the Academy. They better they read and understand the game, the faster they will identify game specific situations and know what to do best in different scenarios. Therefore, the preparation of each player from a spatial and positional perspective is something that he has to work on before, during and after a game.

What should differentiate our players from others is the way they look at situations and what decisions they make. Decisions that are proof that we have established a high performance football culture in developing players that are able to successfully make the transitional steps from youth to professional football. And in order to get to this point, the TRI-SERIES is a valuable tool that teaches them a lot about decision making whether right or wrong

**Edorta Murua**  
Technical Director Football Department

## QUICK FACTS

Since it was launched in 2012, the Tri-Series has played a major role in the development of Aspire Academy's student-athletes. The tournament series provides an opportunity for teams from the Academy to compare, benchmark and compete against the best youth teams in the world. Below we explain some key features of the Tri-Series.

### 1. TEAM SELECTION

Each season, the Tri-Series brings club teams, national youth teams and players from academy teams around the world to Doha. These teams are selected to participate in the tournament according to specific criteria including the standard of youth development programmes in their countries as well as the profile and background of the teams themselves. Planning for the forthcoming season has generally already been completed by the end of April. Each tournament schedule has to be coordinated with the international and national playing commitments of the clubs and national teams as well as with the academic year.

### 2. ORGANISING THE TOURNAMENT

The tournament series presents a mammoth organisational task, involving several departments within Aspire Academy. Every element is meticulous planned – across catering, transport, visas, flights, accommodation, interpretation, hiring referees, provision of medical care, PR and much more besides. The Football Operations team from the Academy plays an important role working with the clubs before their trips to handle visas along with a range of other organisational tasks.

### 3. ON-SITE SUPPORT

Once the teams arrive, they are welcomed by a team guide who accompanies them during their entire stay in Doha. Accommodation at Aspire Zone, in the 'Torch Hotel', ensures the teams are only a short distance from where the games take place. Aspire Academy's pitches are just a five minute-walk away, so is the Academy's cafeteria, where the visiting teams are served lunch and dinner. Medical assistance is provided by the Academy's "Medical Centre."

### 4. COVERING OFF THE FORMALITIES

Before the first match kicks off on the first day of the tournament, the team coordinators gather in the morning for a technical meeting at Aspire Academy. There the clubs are given an overview of the format of the tournament by Stephan Hildebrandt, Manager Football Operations. The rules are explained to them and they also get to meet the teams of people playing important roles behind the scenes. Before lunch, the teams are officially welcomed to Aspire Academy by a representative of the Football Department.

## 5. MAINTAINING THE TEMPO OF GAMES

The purpose of the tournament is to provide valuable match experience for players. So whilst teams are able to bring on substitutes during the game, opportunities to do so are limited to just two substitutions during the second half. This is designed to maintain the tempo and ensure that games are fast flowing. After a player is taken off the pitch, it is not possible to bring him back on again. Players sent off in a match are usually suspended for the next game. In the case of an appeal, the tournament committee can review individual cases based on examining video footage.

## 6. PENALTY SHOOT-OUT

The team with the most points after two games wins the tournament in their respective age group. In the event that two teams have the same number of points, the winner is decided on goal difference or if necessary, the total numbers of goals scored. In the event a game ends with a draw, a penalty shoot result determines the winner, who is awarded an extra point for the ranking.

## 7. ACCURATE ANALYSIS

All games are taped by Aspire Academy's scouting department, and each team receives DVDs of their matches after the tournament. In addition, visiting teams receive a match report produced by PROZONE, which features analysis of

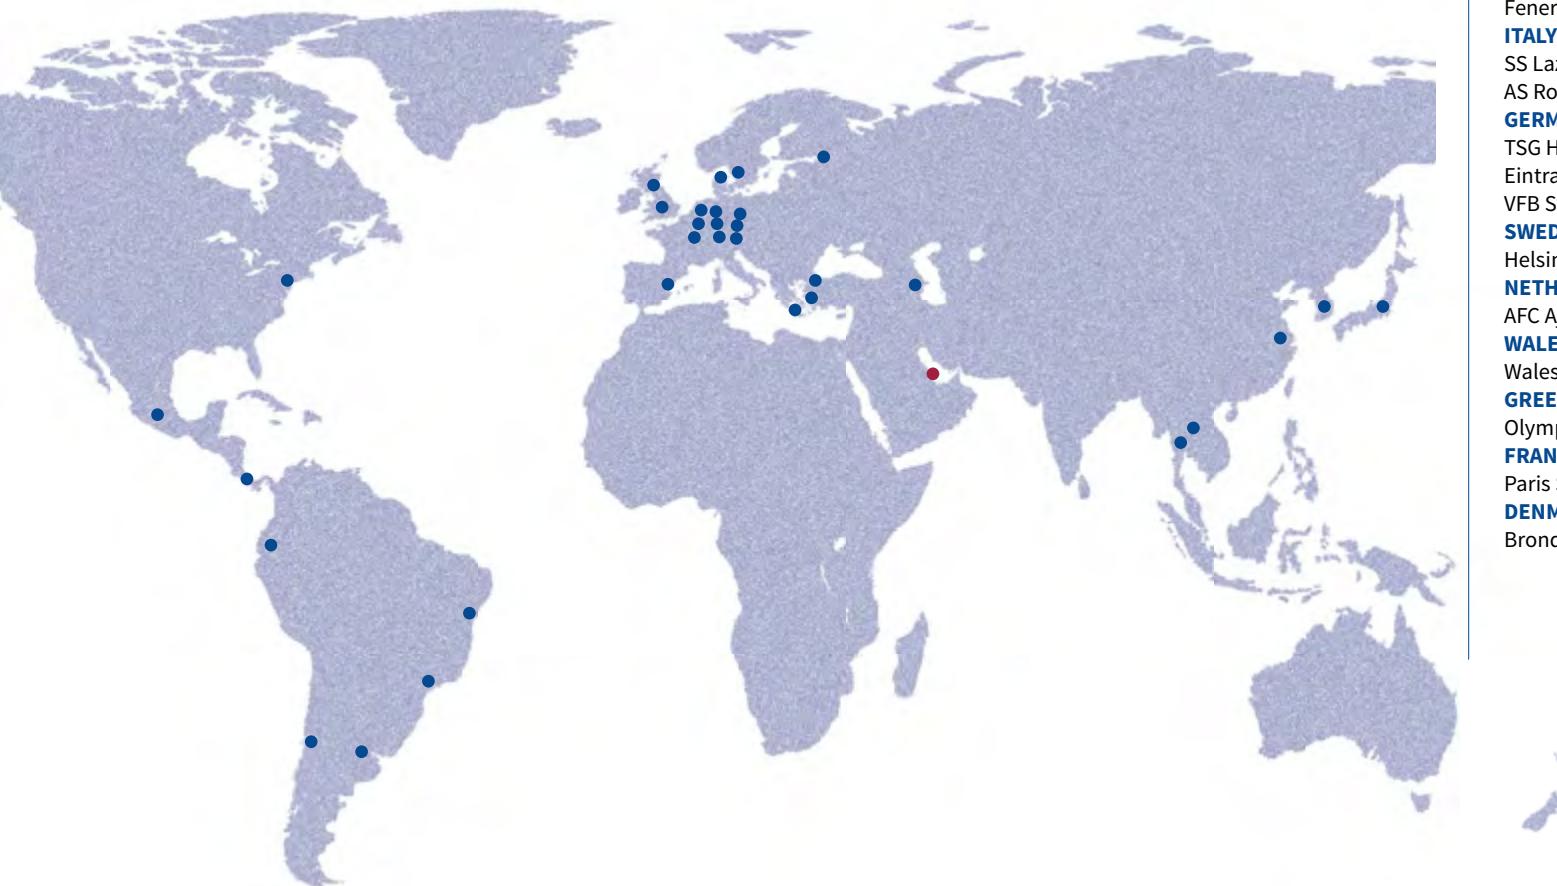

their games against Aspire Academy. To ensure they receive an accurate report, teams must submit details of line-ups and tactical formation to the scouting department before 12:30pm on match day.

## 8. RECOGNITION

Each tournament concludes with an official awarding ceremony. This takes place after the last match on the third and final day of the tournament, and every team receives a trophy in recognition of their efforts. Furthermore, the scouting department awards the "Most Valuable Player" and the "Most Outstanding Goalkeeper". The TRI-SERIES is covered by local media, as well as by Aspire Academy's own publications and channels including a TV-magazine on the Al-Kass Sports Channel, social media, information screens around the Academy and the Academy magazine "CHAMP".

# HOSTING THE WORLD

The 2016-17 TRI-SERIES season gathered 34 clubs and national teams from 22 countries at Aspire Academy. 1,138 players and 282 staff members participated in 14 tournaments and 154 games across nine age groups.

# THE PLAYERS OF HONOUR

At the beginning of the 2016-17 season, Aspire Academy introduced two awards to the TRI-SERIES. In every generation of a tournament the "Most Valuable Player" (MVP) and the "Most Outstanding Goalkeeper" receive a special recognition at the closing ceremony of the event.

The MVP and best goalkeeper are chosen by members of Aspire Academy's scouting

department and goalkeeping coaches, who record and analyze every game of the tournament, and a member of the organizing committee. "The idea was to add another element to the competition that creates excitement and increases the motivation among the players," Stephan Hildebrandt, Manager Football Operations, explains the purpose of the innovation.

## THE AWARD WINNERS OF 2016-17

Tri Series Date	Tri Series Teams	Age Category	Most valuable Player	MV Goal Keeper
3-6 Oct	ULSAN HYUNDAI - CELTA DE VIGO	U16	Khaled Bin Sabaa (Aspire Academy)	NA

# STANDING TALL IN BELGIUM'S ELITE LEAGUE

**Following the promotion of the Aspire Zone-owned club KAS Eupen to the Belgian Football First Division (Jupiler Pro League) in 2016, the team competed against the best teams in the country in the 2016-17 season. Aspire Academy graduate Fahad Al-Abdulrahman has been with the club during this exciting transition and in the following interview the 22-year-old Qatari defender talks about his career in Belgium.**

**Fahad, after KAS Eupen was promoted, how hard was it to adjust to Belgian's first league?**  
**Fahad Al-Abdulrahman:** It has been an adjustment for sure, because the teams here are much stronger. The rhythm of play is higher and you have to put in extra effort to prepare yourself properly, physically and mentally, for every single game. This is especially true as a defender because the attackers are more skilled than those we've encountered in previous years. Some of them are internationals and have a lot of high-level experience. You have to give a hundred percent all the time if you want to stand

a chance. Nevertheless, the more games I got under my belt, the more I got used used to this level of competition.

**You first joined Eupen in 2013 as part of the Aspire Academy's HOPE Project. Back then, you were part of Eupen's U21s for a few months while still going to school in Doha. After that experience, did you envision Eupen as the place for your breakthrough into professional football?**

the team, because I can easily adjust to changes of positions in different situations of the game. And playing in strong tournaments in Qatar or abroad helps us a lot in this development process.

**The Jupiler Pro League has produced a lot of players that now perform in some of the world's best clubs and leagues like Hazard, Lukaku and De Bruyne. Do you think it can also be a stepping stone for you?**  
 Every football player wants to play for a big and prestigious club in a strong league one day. I don't think that anything is impossible if you have the right attitude, work hard every day and if you are willing to learn new things. But this is something that's still a few years ahead and it would not be good to keep thinking about what could be in a few years. For now, my focus is entirely on Eupen. I just want to give my best every day, do my job on the pitch as well as I can and help my team do well.

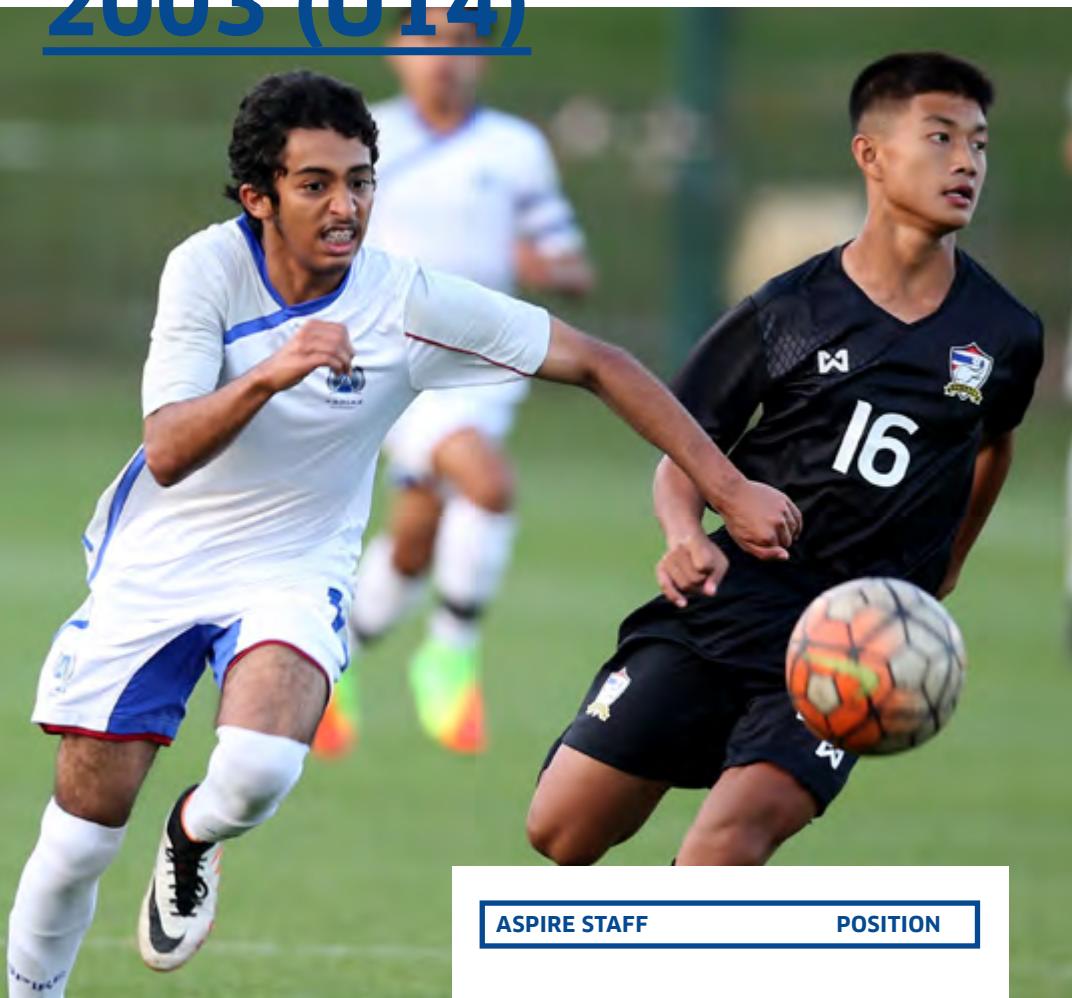

**At the start of the 2015-16, there were quite a few Qataris in the first team. Some went on to play in the QSL, Akram Afif left for Spain; how did it feel being the only Qatari left at KAS Eupen at the start of the 2016-17 season?**

It was a new situation for me. Last year it was not just Akram but, at the beginning of the season, Ahmed Moein and Ahmed Al-Saadi were playing for Eupen too. They have gone on to play in the Qatar Stars League. It was a big change for me at first but I spend a lot of time with my teammates and, in the end, if you want to be a successful footballer, you cannot always stay in your comfort zone.

**How important was your time at Aspire Academy for your development? What are some of the skills that you learnt there that are helping you now in your life as a professional football player?**  
 Without Aspire, I would not be here. The coaches at Aspire Academy are really good and all the support Aspire provides helps young athletes – not only in football but in other sports as well – to make it to the elite and professional level. The most important thing I learnt at Aspire is to play in different positions, so now I'm very flexible. I started as a striker and ended as a left back. I think that this experience can be very helpful for

## A SMOOTH TRANSITION

**Before players reach the age to be selected as full-time student-athletes of Aspire Academy, they have the opportunity to play for the Academy's Feeder teams. In the following interview, Arno Buitenhewg (46), former youth coach at Real Mallorca and Coordinator of the Feeder Teams, explains the main focus of the work with the age groups from U9 to U12 and how this program successfully closes the gap to the Academy's full time teams.**

### **Arno, what is most crucial part about working with the Feeder teams?**

It's an elaborate process, because the main goal is, of course, to select players with potential and prepare them for the elite teams of Aspire Academy. This pathway starts actually long before the players reach the age to join the feeder teams. It includes the efforts of our Talent Centers to attract kids interested in football at an early age and this first point of contact with boys and parents really kicks the process off.

After that it's about scouting the most talented of them for the Feeder teams and in the next stage providing them training specifically tailored to the improvement of their technical and physical development.

### **A key factor in the development of young footballers is playing experience. How important is this aspect in the work with the Feeder teams?**

Playing as much as possible is absolutely essential at this age. Since these age groups traditionally don't have as many club competitions in comparison to the older generations, we have been trying to add as many additional games to their schedules as possible. These games include the TRI-SERIES, the "Aspire Football League", internal competitions or tournaments abroad. These competitions help us a lot, but, of course, we are always keen to improve and turn the screws if we feel that there are more efficient ways to achieve our goals.

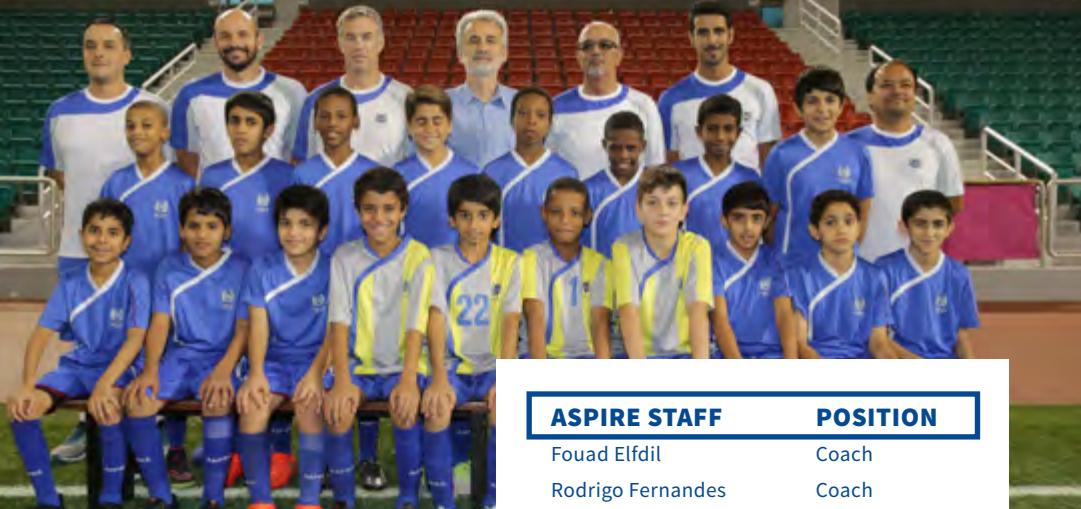

**The training time with Feeder teams is ten hours a week. In order to make the best of this limited time, what is the main focus in training?**

Technical abilities and physical development are very important at that stage. If your technique is good, you automatically get more comfortable with the ball and as a result you have more time to read the game and to make good decision that have an impact on the game. If they successfully make the transition to Aspire Academy this game oriented approach slowly shifts into a more individual direction. The training intensity gets higher, tasks are more complex and the players are constantly challenged in order to work on themselves and to improve.

### **An approach that has proven to be very successful.**

That is true, and there is quite a high number of success stories. Akram Afif, for instance, who was the first Qatari footballer to sign for a club in Spain's La Liga, started off in our feeder teams and gradually worked his way up. He became a full-time student of Aspire and also gained international experience thanks to our cooperation with clubs in Europe when he was still in school. Then he played an important role when Qatar's U19 won the AFC Championship in 2014, he got promoted with KAS Eupen in Belgium and currently plays for Sporting de Gijon in Spain and in Qatar's first national team. He is a poster boy for the success of our process and we are eager to see more of our young boys following his footsteps.
